The maximum allowed drug cost for specific multiple source drugs will be the lesser of: either the VMAC, based on the 60th percentile or maximum cost level, as identified by the state agency or CMS' upper limits as applicable. The original per capita fee shall be determined by a DMAS analysis of costs related to such dispensing, and shall be reevaluated at periodic intervals for appropriate adjustment.

8. Determination of EAC was the result of a report by the Office of the Inspector General that focused on appropriate Medicaid marketplace pricing of pharmaceuticals based on the documented costs to the pharmacy. An EAC of AWP minus 10.25% shall become effective July 1, 2002.

The dispensing fee for generic drugs of $4.00, and the ~~The~~ dispensing fee for brand name drugs of $3.75 (effective July 1, 2003) shall remain in effect, creating a payment methodology based on the previous algorithm (least of 1 through 5 of this subsection above) plus a dispensing fee where applicable.
